SWEETING!

Gain Several U. S. Senators

And Several New Governors.

The most ardent Democrat could scarcely have expected a more

Overwhelming Democratic victory all along the line, in all the States, and in every section of the country, thus was won by the brave-hearted Democracy of the American Union on last Tuesday. Only one State disapproves the Democracy—Ohio, and that has done well for Republican Ohio, but would have done better but for a factional split between Campbell and anti-Campbell Democrats. But the Democrats of the country have too much cause to rejoice to stop to make motions over Ohio.

In New York the Democrats have gained several Congressmen, and probably won the Legislature over the most wicked gang manner ever known in the history of politics.

In Pennsylvania they have gained Congressmen, and wiped out the 50,000 Republican majority, electing the Governor by 149,000.

In Republican Nebraska they have gained Congressmen and carried the State.

In Republican Michigan an immense majority has been over-come, Democrats gaining Congressmen and the Governor.

And bloody Kansas, with 50,000 Republican majority for Harrison, now sends 3 Democrats, 2 Wheelers and Democrats, and only 2 Republicans to Congress, and the Governor still hangs in doubt at this writing.

Virginia now sends a solid Democratic delegation to Congress—

Arkansas also sends a solid Democratic delegation as a vindication of the infamy of turning cases and trials back and forth.

Missouri returns to her real love, the solid Democratic list of Congressmen.

Tennessee comes to the front with 5 Democrats and 2 Republicans.

And grand old Kentucky holds her own, and gains one Congressman.

Even Ohio picks a majority of Democratic members, a gain of 9.

Little Delaware has probably gone Republican. But Rhode Island elects Hays by wheeling and over to Democracy.

And the new, surprising election

The climax of an election pervasively yesterday at the residence of Mr. Charles L. Long, President of the Water Company, was a surprise to all. Mr. Long was expected if the Republican party succeeds in making the Force bill a law, Mr. Long is very indignant, and yet the Supervisor had him in the room, and he said he will give the election officers a lesson.

"A Supervisor came to my house while I was at dinner today, and he said he had a man with him, who had registered from there, and who had a right to vote. I told him I would not give him a vote, only those that had registered who had a right to do so. He said he had a right to give him a vote, and I would be accountable to the law if I did not answer. I told him my name was not on the list, and I was responsible, and I was prepared to take the consequences." He said he would go and consult the election officers, and he would come back. He said he had a copy of the registration, and repeated the registration.

tration of what the Force bill now pending in Congress would be. The present Federal election law, applying to only the Territories, requires the supervisors to be appointed equally from the two political parties, but the Federal supervisor, who decides all appeals and differences, is, of course, a partisan of the appointing party. But it is even worse in the Force bill, now pending in Congress, and which will pass this winter, for that law does not prevent the appointment of a majority of supervisors from one political party. Under its provisions the majority of supervisors is scarcely selected, not appeal except to the chief supervisors, and their report is to be final, so far as seating a member of Congress is concerned.

A STRANGE faith has taken possession of the Sioux Indians lately. It is on every lip and inspires every heart. They believe a Messiah is coming to destroy the more rulers of the nation, and the white people are crying out, "Hill, they think he will now help the Indians regain his happy hunting grounds and avenge them on our people. Those who do not believe, it is said, will be killed. This is an unfortunate faith, and its result will be the killing of a few thousands of Indians, more or less, and the balance of them

Conspiring to Raise Prices

Some country Republican spokesmen may deny that the Republican staff has asked prices, but the

Reading Republican newspaper editorials, it only they easy that the Democratic papers entered into the "conspiracy" to lacerate President Roosevelt. The great Republican newspaper, the *Washington Post*, has been the loudest in the chorus.

As Catholics so cruel, anxious as the Democratic press has been to do, they have not been able to do it in the olden days. Water is at hand, price of clothing low, money plentiful, and the Democratic press has been too busy to find a few substitutes to offend the Democratic press. It is not the Democratic press, then, to diminish the volume of trade, nor the volume of money, but to make money, as they are now, exist. This being accomplished, the Democratic press has been able to get into power by charging the necessity of the country to the Democratic press. The people are so stupid that they are so stupid that the Democratic press has been able to get into power by charging the necessity of the country to the Democratic press. The people are so stupid that they are so stupid that the Democratic press has been able to get into power by charging the necessity of the country to the Democratic press.

The law by which banks are exempted from county and municipal taxation in consideration

—aying a State tax at the rate of twenty-five cents, is to have a test of the constitutionality in the case of the citizens of the State, who are the two citizens of Mayfield, Messrs. L. Anderson and W. Tice, have filed a suit in the United States Court at that place on the ground of collecting their city tax for the year 1900. "Another of the allegations, they say it is a manifest discrimination in favor of banks to tax the people of the State, who, they say do not pay taxes, and that it is a violation of the fourteenth amendment to the United States Constitution. They also claim that the city council, by electing an assessor out of the ranks of the city, is an act in restraint in valid and unconstitutional. A big legal contest is likely to occur."

Tar Louisville and Cincinnati warehouse combine has been effected, and the articles of incorporation registered. The combine will operate under the name of "The Western Tobacco Warehouse Company." Delnegation of the tariff law on various countries in the Louisville District will meet in Lexington, Nov. 12, to form a combination in opposition to the motive.

If the tariff law can make a man satisfied with one suit of clothes because he cannot get two, why cannot surplus meals, as life can be preserved upon one meal a day? The tariff tinkers may the work of man wears too much, has too many luxuries. Why not reform him also in the matter of food?

Do the people of this country appreciate the tariff? Do they care for them? A tariff every one
